Posted on [April 10, 2016](#) by [TM](#)

- Width: 210mm ; Thickness: 70mm
- Length – Min: 1.2 m ; Max: 3.6 m
- Suggested Use: Beams, Joinery & Furniture, Pergola
- Species: Yellow Stringybark
- Source: Recycled
- Condition: Air Seasoned
- SKU Code: TTTTP-1298

Description: NEW LIMITED STOCK! Just salvaged from a recent demolition of the Rosebud Pier- this is a chance to buy some authentic Port Philip Bay history. This timber has a unique silver-skin petina through years of weather at Rosebud. It features an eye catching, interlocking grain. Despite the rustic petina this timber is very structually solid. This allows a multitude of applications- Pergola's, decks, landscape pathways, feature walls or furniture. We'd be happy to dress or sand the timber to reveal the natural characteristics of the wood.

- Grade: Joinery & Furniture
- Surface Condition: Raw
- History: Wharf demolition
